

# AGI's Novo TouchBet® Live-Roulette sets milestone in Roulette lounge of Spielbank Bad Homburg

Austrian Gaming Industries GmbH (AGI) has exclusively delivered the latest gaming technology for the opening of the new Roulette lounge at the casino Bad Homburg. The installation signalled the world premiere of 8 white Novo Tableau™ multi-player terminals combined with a Novo TouchBet® Live-Roulette.

After many years of valued co-operation, the historical Spielbank Bad Homburg has once again opted for the state of the art roulette equipment and gaming know how of Austrian manufacturer AGI.

The new installation consists of a modern Novo TouchBet® Live-Roulette system and 8 Novo Tableau™ terminals in elegant white, all staged in the newly launched roulette lounge. The roulette wheel is operated by a croupier and thus offers the traditional atmosphere and discreet privacy of roulette combined with up-to-date technology and

security. Modern screen and camera technology allow a live broadcast of the wheel on each terminal, contributing to a top gaming experience.

The 8 Novo Tableau™ multi-player terminals are equipped with high resolution TFT touch-screens and impress with high gaming convenience in elegant style. Cash handling will be executed via banknotes and ticket-in-ticket-out (TITO) functionality. On special request of the Spielbank Bad Homburg the terminals have been manufactured in white and thus blend in perfectly with the elegant ambience of the historical casino.

“Through the flexibility of our portfolio we are able to realise even rather specific requests concerning style and installation“, says Jens Halle, Managing Director AGI. “At the Spielbank Bad Homburg we attained a further milestone in the compliance of optimised space-management, elegant style and maximum gaming experience for the player.“

**Bruno Hubert, Managing Director Spielbank Bad Homburg, is pleased with the new purchase:**

*“With the new Novo TouchBet® Live-Roulette system we have achieved a perfect blend of modern slot machine gaming and the traditional live roulette atmosphere. The contemporary gaming technology in connection with the optimised management of our edificial circum-stances through 8 terminals guarantees exquisite entertainment for our guests. We are positive that the new roulette system will enjoy great popularity among our visitors.“*

The new Roulette lounge will be launched this Sunday, April 30, 2006 at 3 pm – it is declared as a non-smoking-area.
