

# **Cantor to exhibit at GSMA Mobile Asia Congress in Macau**

LONDON 2007 – Cantor Gaming today announced that Cantor Gaming and Wagering LLP (Cantor Gaming) a division of Cantor Fitzgerald, will continue its exposure on the international market by exhibiting at GSMA Mobile Asia Congress in Macau between 12 – 15th November 2007.

In particular, Cantor Gaming will be exhibiting its range of Total Gaming Solutions that includes Mobile, WiFi and on line gaming software, games and management. In addition and in keeping with the nature of 3GSM, Cantor Gaming will also be revealing 20 new games for its Mobile portfolio.

Cantor Gaming's existing offer includes a wide range of mobile games from skill fun games to traditional casino style table and slots titles. Among the new games are Roulette and Blackjack from Red Lounge Mobile Casino which contain the usual high level graphics and excellent player interface.

Along with its Mobile offering, Cantor Gaming will also have its unique and groundbreaking WiFi units that are used in conjunction with Cantor Gaming Curb to Curb. Curb to Curb is the most advanced WiFi system in the world and will shortly be unveiled in full working mode at the Venetian Hotel in Nevada.

Commenting on the Macau and 3GSM markets, Managing Director of Cantor Gaming Manu Gambhir said, "The world of Gaming is getting smaller in geographic terms all the time. The onset of Mobile Gaming in all forms is another step and Cantor Gaming is well placed to provide the latest games and technology in this area. Macau is now recognised as the fastest growing Gaming market in the world and there is no more fitting place to showcase our latest products and titles."
