

Greentube makes market debut in Germany with OnlineCasino Deutschland AG

Vienna – Greentube, the NOVOMATIC Interactive division, has taken its games portfolio live with OnlineCasino Deutschland AG, marking the supplier's debut in the newly-regulated market.

The operator's customers now have access to top-performing Greentube titles including Diamond Link™: Mighty Emperor, Früchteparadies 10 and Seven Seas Jackpots™, as well as other player favourites.

The milestone partnership sees Greentube's content live in Germany for the first time since the country's new legislation came into force on 1st July, permitting nationwide online gaming.

The market entry is an important step for the supplier who sees Germany as a key territory in its growth strategy. Greentube's content is already popular in the country's land-based sector and will be familiar to local players.

OnlineCasino Deutschland AG is a pioneer in the German online gaming market and the operator has been providing a licensed offering since 2013. The company delivers first class entertainment with a focus on player protection.

Julia Schagerl, Key Account Manager Germany at Greentube, said: "We are beyond excited to have finally launched our games portfolio in the newly-regulated and highly-anticipated German market. The country has huge potential and our content has already proven popular with the local audience so we have high hopes for what the future has in store. OnlineCasino makes the perfect partner as we introduce our games to online

players as they are an established operator with a great focus on responsible gaming, something that is of high importance to us at Greentube.”

Andreas Pfeiffer, CEO and Founder of OnlineCasino Deutschland AG, said: “Greentube’s content is a must-have for a German operator and as the online market opens up nationwide we are thrilled to be the first operator to introduce their renowned games portfolio to local online customers for the first time. It is an exciting time for the gaming industry in Germany and we look forward to working together with Greentube to grow our online brand.”
