

Crown not in talks for US investment

Casino operator Crown says it is not in talks with MGM or Dubai World to invest in the City Center development in Las Vegas.

„It is Crown’s policy not to comment on speculation,” Crown said in a statement today.

„However, as there has been widespread media speculation over the weekend that Crown is considering a direct investment in the City Center development in Las Vegas, Crown is making an exception to its policy.

„Crown is not having any discussions with MGM or Dubai World with respect to any such investment in City Center.”
