

Big Chattermeeting with the Pro7 Chat and the **ISA-CASINOS** Chat in Erlangen, Germany, the 8th of March 2003

(rs) [key:IC] Chat is online since 3 years, and this anniversary is celebrated in Erlangen, Germany. Just in time for this anniversary the newly developed Community and layout is presented for this occasion.

The [key:IC] Chat reachable through www.isa-chat.de opened its cyber doors at 26th February 2000. As of today, 1089 chatter have registered with this chat, meeting as small groups to exchange and enjoy themselves. The relatively small chat has been close to the Pro7 chat and its chatters since the start of the [key:IC] chat. At much of the Pro7 chatter meetings, a number of people from the [key:IC] joined in to celebrate as well.

At 8th March 2003 a new chatter meeting has been called for. [key:IC] financially supports this happening. Joining in and registration of attendance can be done via <http://erlangen.veronica-cc.de>. Information about the previous meeting in Erlangen can be viewed at Erlangen CT 10.03.2001.

The new outfit and design of the [key:IC] chat is just placed online. It is a complete new development and design driven by Ute B. Schmidt, from Hamburg, Germany using templates of the Casino Baden-Baden, and Thomas Kluge, the administrator of the [key:IC] chat. The new outfit

surprised the chatters. All were very happy with the new design and layout.

Also new is the forum and the black board with themes as „Gambling addiction“ and „TV Command“. The chat rooms have been re-decorated and some new rooms, like „Gamble addiction“ have been created. In this room, some therapists are in discussion with people addicted to gambling. These discussions are free of charge, and [key:IC] will report on the benefits for the people from these discussions. Fun and pleasure are as usual the most important topics. The VIPs, responsible for a nice chat experience, „RUH“ and „NightCat“ would be enlightened about your visit to this chat, and will welcome you warmly.
