

2021 Gaming in Germany Conference: Full keynote speech and regulatory update

GAMING **IN** GERMANY

On Monday, October 25, close to one hundred participants gathered at the Grand Hyatt Berlin to attend the 2021 Gaming in Germany Conference.

Attendees were offered a full day of highly informative sessions on regulation, taxation, responsible gaming, the industry's perspective, and entrepreneurial innovation.

h3. VIDEO | Keynote speech & regulatory update

In case you were unable to attend the event, or simply want to refresh your memory, we have made available a „full video recording“:<https://www.youtube.com/watch?v=DujyzJIrUQE> of the event's keynote speech.

Our keynote speaker, Dr. Jörg Hofmann, Past President of the IMGL and Head of the Gaming and Betting Law Practice Group at Melchers Law Firm, will take you through a highly informative summary of Germany's new online gambling regulations.

His presentation touches upon the following topics:

- * General overview of current regulations
- * Licensing and the transitional regime
- * Future changes (from 2023)
- * Things that need to change to make the German market a success

h3. See you next year?

Following the hybrid event of 2020, the 2021 Gaming in Germany Conference offered the first opportunity for domestic and international decision makers to finally meet in person. We were very happy to see that discussions were started, and connections were made.

We hope to build on what we achieved and make the 2022 Gaming in Germany Conference an even more useful and informative event. Now that Germany's new national gambling regulator has appointed permanent leadership, we are also working hard to have further engagement from regulatory and political stakeholders.

See you next year?
