

# Merkur Gaming's innovations at G2E, #4664

**More than just a game!**

Espeykamp/Las Vegas. Merkur Gaming, a member of the German Gauselmann Group, will showcase its hottest gaming solutions on booth #4664 at this year's G2E in Las Vegas, 4-6 October. "Following on from our successful debut in Las Vegas 2010, we will display a wide range of innovations for the South American and Latin American markets as well as for the international casino market. We are very excited about the show and the possibility to convince visitors once again with the proven German quality", comments Uwe Horn, Managing Director at Merkur Gaming.

G2E visitors will in particular get to know two advanced multi-game lines, "Casinoline" and "Games Unlimited", offering maximum diversity for the international casino market, traditionally characterised by single games. Winning combination of classic and modern game systems with thrilling features and brilliant graphics lets nothing to be desired.

All games packages will be available in the novel casino cabinet WB5 and the famous Slant Top cabinet, which has already won over the G2E guests last year due to its ergonomic and highly attractive design 'made in Germany'.

"This year we will introduce our eye-catching jackpot systems and we are sure the G2E visitors will be delighted by the results of our work", adds Uwe Horn.

By demonstrating solutions for the VLT market Merkur Gaming will also introduce its well-founded know-how for this special gaming industry segment. Success of the VLT products is guaranteed by the modern adp Gauselmann technology and Merkur's fantastic games.

As a matter of course the technical masterpiece, Merkur Dispenser 100, must not be missing in Las Vegas. This unique product for the advanced cash-handling meets the increased requirements of the dynamic game systems and the modern operating industry and has been already successfully implemented in the European markets.

Another affiliated company of the Gauselmann Group, HESS Cash Systems, will join Merkur Gaming in Las Vegas this year as well. The latest products of the "Scorpion" product range, a kiosk for ticket redemption and a compact solution for smartcard transaction, will be presented on Merkur Gaming's booth.
