

# **Casinos Austria International (CAI) to hold 16th Annual Manager Meeting at G2E 2003 in Las Vegas**

Global Gaming Expo (G2E), the world's largest international gaming entertainment trade show and conference will take place this year from September 16-18 at the Las Vegas Convention Center, Las Vegas, NV, USA. The managers of CAI's 69 casinos around the globe will be travelling to Las Vegas to attend this mega event, taking advantage of the opportunity to get together to share ideas and experiences in the „gaming capital of the world“

Casinos Austria International (CAI) to hold 16th Annual Manager Meeting at G2E 2003 in Las Vegas

Global Gaming Expo (G2E), the world's largest international gaming entertainment trade show and conference will take place this year from September 16-18 at the Las Vegas Convention Center, Las Vegas, NV, USA. The managers of CAI's 69 casinos around the globe will be travelling to Las Vegas to attend this mega event, taking advantage of the opportunity to get together to share ideas and experiences in the „gaming capital of the world“.

The CAI Group's Casino Managers traditionally meet once a year to cultivate their global network and discuss trends in the casino sector. The meeting is usually hosted by one of CAI's newest casino locations, but this year the company decided to do something different, and hold the 16th Annual Manager Meeting during G2E, from September 12-18, bringing it to Las Vegas for the first time. One of the main topics of discussion will be the successful development of local neighborhood

casinos around Las Vegas, away from the large, familiar casino and entertainment complexes on the Strip. These neighborhood casinos are primarily designed to attract local residents from the Las Vegas metropolitan area and operate in an extremely competitive environment. This year's CAI Manager Meeting will take a closer look at some of the strategies for success employed by these new, local casinos.

CAI and its sister company, Casinos Austria Research & Development (CARD), will also be exhibiting for the first time at G2E. The two companies will share an 800 sq. ft. booth and present some of the newest products and services from the Casinos Austria Group.

CAI is a leading international casino project development and management company with strong European roots. The company offers a complete range of services: from evaluation and planning, to construction and operation of casinos all over the world. CAI currently operates 53 casinos in 16 different countries on six continents, as well as 16 casinos on board international cruise ships. Since its founding in 1977, CAI has successfully realized over 200 individual casino projects. G2E offers existing and potential partners and journalists an excellent opportunity to meet with CAI management representatives, find out more about CAI's worldwide network of casinos and expertise, and gain a preview of the company's newest projects.

CARD develops, manufactures, and supplies premium technical equipment for the international casino market and will focus its presentation at G2E on the new CARD Easy Chipper™, the latest chip sorter in the CARD product range.

We look forward to welcoming you at our booth # 2139 at G2E!
